Foreword

The *Handbook of Selected Data For Mississippi* presents basic economic, social, and demographic information about Mississippi in a compact and useful form. Selection of the specific data included in the handbook was based on information needs of both those involved in economic development and the Center's own staff. The material provides a quick reference to Mississippi's socioeconomic characteristics.

Revised from the 1978 handbook, this edition updates information on transportation, population, education, employment, income, natural resources, utilities, multicounty districts, and miscellaneous subjects. Several maps from the 1978 handbook were omitted, however, because the data on which they are based are not yet available. The Census Bureau will release more detailed information concerning such items as median family income, median school years completed, and commuting patterns in 1982 or 1983. At that time, a supplement to this 1981 handbook will be prepared.

The information is shown on maps with a limited amount of text in order to present as much information as possible at a glance and to permit the user to quickly identify geographic locations of interest.

Any comments or suggestions for additions or changes that might make the handbook's content more useful will be welcomed.

Jim W. Meredith
Acting Director

Acknowledgments

Special thanks are due to the following agencies, commissions, associations, and private companies which provided information for many of the maps, charts, and lists published in this handbook:

Mississippi Aeronautics Commission
Mississippi Bureau of Pollution Control
Mississippi Commission on Hospital Care
Mississippi Department of Natural Resources
Mississippi Employment Security Commission
Mississippi Geological, Economic, and Topographical Survey
Mississippi Park Commission
Mississippi Public Service Commission
Mississippi Rivers and Harbors Association
Mississippi Secretary of State
Mississippi State Board of Health
Mississippi State Department of Education
Mississippi State Highway Department
Mississippi State Oil and Gas Board
Mississippi State Tax Commission
Mississippi State University, Agricultural Experiment Station
U.S. Army Corps of Engineers
U.S. Department of Agriculture
U.S. Department of Commerce
U.S. Department of Interior
U.S. Department of Labor
U.S. Geological Survey

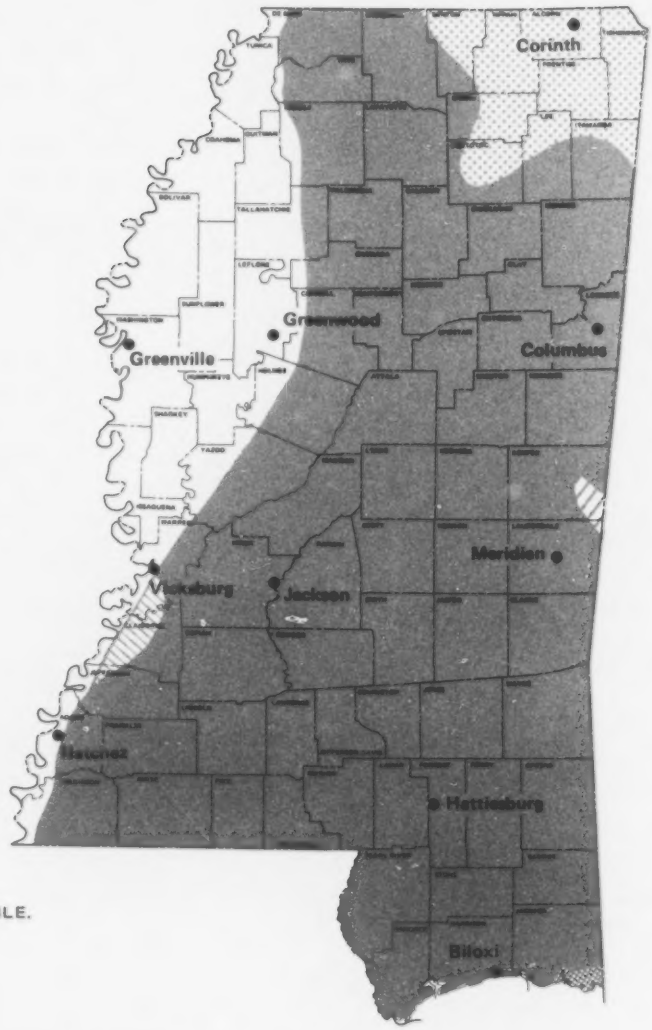
AVAILABILITY OF GROUNDWATER

ABUNDANT SUPPLIES OF COOL (63° – 67°F) HARD WATER, 250–500 PPM DISSOLVED SOLIDS, IN ALLUVIUM; SOURCE FOR HUNDREDS OF IRRIGATION WELLS, 3,000 GPM YIELDS OR MORE; FURNISHES COOLING WATER AND MANY DOMESTIC SUPPLIES. MODERATE TO LARGE SUPPLIES IN THE WARMER, DEEP ARTESIAN AQUIFERS WHICH ARE THE SOURCES OF MOST PUBLIC, INDUSTRIAL, AND DOMESTIC WATER SUPPLIES.

SMALL TO MODERATELY LARGE SUPPLIES OF COOL, SOFT TO MODERATELY HARD, GOOD QUALITY WATER FROM SAND AND CHERT FORMATIONS. FURNISHES MUNICIPAL, INDUSTRIAL, AND RURAL NEEDS.

MODERATE TO LARGE SUPPLIES OF GOOD QUALITY WATER IN SHALLOW TO DEEP (3,000 FT.) ARTESIAN AQUIFERS; LOCALLY, EXCESSIVE IRON IN SOLUTION. ALL MUNICIPAL SUPPLIES EXCEPT COLUMBUS, JACKSON, AND MERIDIAN DERIVED FROM WELLS. TERRACE DEPOSITS FURNISH LARGE BASE FLOWS OF MANY STREAMS. LARGE WATER RESERVES.



LITTLE OR NO POTABLE GROUNDWATER AVAILABLE.

SMALL TO MODERATE SUPPLIES OF GOOD QUALITY WATER. SHALLOW TO DEEP ARTESIAN AQUIFERS.

MODERATE SUPPLIES OF GOOD QUALITY WATER IN ARTESIAN AQUIFERS. DANGER OF SALTWATER ENCROACHMENT.

NOTE: Temperature of shallow groundwater ranges from about 62°F in the north to about 68°F in the south. In Mississippi temperature increases 1°F for each 60 feet to 100 feet of well depth.
